Apprenticeships within Prodrive take place over a period of 3 years, with the opportunity to work in a variety of departments.

Apprentices usually become full-time employees of the company and much of the competency assessment is carried out in the workplace through the collection of 'portfolio' evidence. Further training support is provided through workplace monitoring visits undertaken every 12 weeks by college staff; providing an opportunity for feedback from workshop supervisors.

We will be taking applications for 2008 apprenticeships from 18 January 2008 until 3 March 2008.
