

JOB DESCRIPTION

Job title: Composites Technician / Supervisor

Location: Australia – Ford Performance Racing

Composites Technician / Supervisor required for highly professional motor racing team based in Campbellfield competing in the V8 Supercar Championship.

Utilising our state of the art Autoclave and composite facility you will be responsible for producing components from the mould making to the final installation. Experience with the latest materials and techniques would be a distinct advantage.

Candidates must be happy to work as part of a team, manage job lists for reporting staff, be enthusiastic and eager to work in the demanding motorsport industry.

Please apply via email: cotoole@fpr.com.au or phone 0400 501 237.
