

# JOB DESCRIPTION

**Job title:** Electrical technician

**Location:** Australia – Ford Performance Racing

Located at the impressive facility in Campbellfield, Victoria, Ford Performance Racing requires a highly skilled electrical technician to become part of their team.

You will need to have proven automotive or aerospace trade wiring skills as you will be responsible for all the car and electrical equipment wiring. MoTec experience is essential for sensor and instrumentation wiring. You will also need experience with RF communication equipment and an understanding of engine control systems.

Candidates must be happy to work as part of a team, enthusiastic and eager to work in the demanding motorsport industry.
